What is a Vascular Sonographer?

Vascular sonographer is a highly skilled allied health professional who performs arterial and venous diagnostic procedures using high frequency sound waves. A vascular sonographer operates a variety of complex diagnostic and monitoring equipment, as well as numerous ancillary devices.

The vascular sonographer performs carotid duplex scanning, lower and upper extremity Doppler examinations, venous duplex scans, abdominal vascular exams, evaluates test results, monitors physiological states of the patient, conducts patient education, and maintains accurate records and protocols during and after procedures. A thorough understanding of hemodynamics and pathophysiology is required.

Obtain, review, and integrate pertinent patient history and supporting clinical data to facilitate optimum diagnostic results.

- Perform appropriate procedures and record anatomical, pathological and/or physiological data for interpretation by a physician.
- Record and process sonographic data and other pertinent observations made during the procedure for presentation to the interpreting physician.
- Exercise discretion and judgment in the performance of sonographic services.
- Provide patient education related to medical ultrasound.
- Promote principles of good health.

Program Goals:

The VSON program is an integrated on-line course study and clinical training program designed to prepare the student for employment in vascular technology. After successful completion of the nationally recognized ARDMS registry exam, the graduate will be eligible to write the initials of RVS or RVT behind his/her name.

The Jackson College program goal is to prepare competent entry-level vascular sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
Health Requirements

Health Certificate Form: A Statement of Physical/Emotional Fitness must be completed (by the physician of your choice) for the sole purpose of determining and documenting your physical status prior to beginning the clinical component of your Allied Health Program (see Exhibit A). The Health Certificate Form includes: a negative Tuberculin Skin Test or negative chest x-ray; proof of immunizations for Rubella (German Measles); Rubeola (Hard Measles); Tetanus/Pertussis; the Hepatitis B Vaccine Series; Varicella Zoster (Chicken Pox) or a physician diagnosed history of varicella zoster; and a recent physical examination. It is preferable that the Hepatitis B series is completed prior to entering the Allied Health program; however, minimally it must be started or a waiver signed before the student is allowed to attend the clinical site. This Health Certificate Form must be completed and uploaded to Castle Branch prior to starting any clinical education courses.

CPR Certification: It is also required to obtain “BLS for Healthcare Provider” CPR Certification via The American Heart Association. This training includes infant, child, adult, 1 man – 2 man CPR, choking and AED devises. CPR must be maintained and proven every 2 years.

Student Health Issues: It is the student’s responsibility to inform the Program Director of any illness, injury, surgery or medical condition that might compromise the safety of either the student or the patient(s) (i.e. lifting limitations, contagious disease, pregnancy, etc.). If a student has an infectious condition that may endanger clients in the clinical sites, they need to inform the Program Director of the situation and provide a written letter from their health care provider stating that it is safe for them to return to the clinical site. While in the program, any student with a medical condition or injury which causes a student to miss clinical for over two (2) days, will be required to obtain a written doctor's release to continue in class and clinical and/or to return to class and clinical. The release will verify that s/he is able to meet class/lab/clinical practice requirements without restrictions on activity (such as limitations on weight lifting). The goal is to prevent aggravating an existing condition, or jeopardizing the students, classmates or patient’s safety or well-being. If a student must interrupt the clinical component for period greater than two (2) weeks, the student will only be re-admitted into clinical with the Program Director and Clinical Instructor’s permission. If at any point there are concerns regarding a health problem or disability, Jackson College reserves the right to require a medical release or physical examination. Students are responsible for contacting the Program Director regarding concerns or risks related to their own health care needs. Students must meet the Technical Standards and Functions (see Exhibit B) set for participants in the Jackson College Allied Health Programs with or without reasonable accommodation.

Health Insurance: It is important that you maintain health insurance to defray the cost of hospital and medical care of any illness or injury that may be sustained while participating in a clinical experience. Substantial monetary liability can be incurred if you do not have medical insurance and injury or illness occurs.
CLINICAL POLICIES AND GUIDELINES

All DMS courses must be completed with a 2.0 or higher to be considered passing for the DMS curriculum completion.

All DMS clinical courses are subject to special scheduling dates which may or may not follow the college semester dates and/or the college calendar.

Clinical Experience: It is expected that student’s high learning curve days of clinical will be on those days when the clinical site has a lower case load. Low learning curve days are when the clinical site is very busy with a heavy case load. On busy days, the student is expected to be of as much help to the staff as is possible. However, the students are placed in a clinical site as a learning modality and we fully wish to utilize this clinical experience possible. Students must understand and adhere to the policies the clinical site requires prior to working in that particular clinical site.

CLINICAL SITE ASSIGNMENT

A clinical site must be arranged and approved for each applicant before final acceptance/admissions into the program. New clinical sites requests are due at the time the program application is submitted (March 1). Do not initiate independent contact with any current Jackson College clinical sites. The clinical site is a third party entity into which students are placed for practical experience. The Clinical staff employees are not paid JC faculty for the clinical education portion of the program. Jackson College cannot guarantee that a clinical site will always be available. Arrangement for such a site depends upon the college’s ability to enter into a formal agreement with a proposed site. Students should not rely upon the availability of a clinical site particular geographical location. College uses its best efforts to negotiate clinical sites, even after they become available, they can become unavailable for reasons beyond the control of Jackson College and in that event Jackson College has no liability.

Clinical Hour Requirements:

The MINIMUM Clinical Practicum hours for AAS & CERT-Vascular Technology Program is 1,000.

Service Work:

Students cannot receive pay for logged clinical hours while enrolled in Jackson College’s DMS AAS & CERT -VSON program. Students are supervised while performing clinical work services.

Clinical Assignment: The Jackson College Clinical Coordinator will establish the specific student clinical assignments and rotation for each clinical site. Students may be expected to commute to an additional clinical site (other than the initial clinical site assigned to them) to obtain the complete education of the sonography program. The Jackson College Program Coordinator and Clinical Instructors must approve all student rotations.
A Basic Clinical Site Schedule will be utilized as a guide by the Clinical Coordinator. The clinical education schedule will be determined by the assigned Clinical Instructor of the clinical site. The DMS students may be required to follow the workday schedule of their clinical site. Lunches and work breaks will be at the discretion of the supervising sonographer. Time is not given for a 30 minute lunch, this means that a student must be at their clinical site for 8.5 hours per day in order to reach their 8 hour minimum requirement per day. The clinical schedule is determined by the clinical site not the student. Students should contact their instructor if they have a problem with their schedule; however, the clinical site’s needs shall dictate the schedule.

**Clinical Coordinator:** A Jackson College faculty who provides DMS clinical education direction for students while at their assigned clinical site.

**Clinical Instructor:** An employee of the assigned clinical site who will support/supervise the clinical education that the Jackson College student is receiving during their clinical education.

VSON students are required to follow all rules and regulations of each clinical site they are assigned. Students violating such rules or regulations will be subject to the warning process and/or dismissal from the VSON program.

It is the student’s responsibility to establish a working relationship with their clinical site. Failure to do so will result in the student being dismissed from the clinical setting and therefore the program.

**Students violating such rules and regulations will be subject to a warning process and/or dismissal from the VSON program.**

**Attendance:** Dependability and punctuality are important factors in the DMS clinical component. Any absences or tardiness, no matter how legitimate, disrupts the learning process of the student and disrupts the operational function of the Ultrasound Department. Students must complete a request for clinical absence for an approved scheduled absence. (See Exhibit C ).

Students are required to notify the appropriate supervisor at their clinical site of their absences for each occurrence. The notification of absence intent should be at least 1/2 hr. (30 minutes) prior to the student’s scheduled starting time. All missed clinical time must be made up within the semester that the absence accord. One absence that is not reported to the appropriate supervisor will result in a **warning action**.

Students are required to be at their DMS clinical site until the completion of an eight (8) hour shift unless permission is obtained from the supervising clinical instructor and the supervising sonographer. Students will only receive clinical hours for time actually spent within the clinical setting. Students are required to submit clinical attendance reporting forms.

The student is to notify the attending sonographer whenever the student leaves the DMS lab/department. Failure to do so may be interpreted as abandonment of the clinical assignment.

**Tardiness:** Excessive tardiness may result in a **warning action**. JC has identified 2 or more tardies during one clinical semester to be considered excessive.
**Injury:** Any student who incurs an injury during their program studies at a clinical site must notify the Clinical Instructor and Program Coordinator and Director of Allied Health as soon as possible. The student will be instructed to follow the clinical site’s process when such an injury occurs within their facility.

**Personal Illness or Injury:** Any student who is unable to perform the routine duties of a sonographer because of personal illness or injury must notify the Clinical Instructor and Program Coordinator as soon as possible. The student must notify the Clinical Instructor and Program Coordinator as soon as possible in writing of the anticipated length of the illness or disability.

**Dress Code:** The student’s dress and appearance is a reflection of themselves as well as Jackson College and the clinical site. The student’s appearance will reflect good personal hygiene and professional dress during all of their clinical practicum and be compatible with the dress code of their current clinical site. The student should check with the clinical instructor regarding specific requirements of the clinical site.

The Jackson College VSON student uniform may consist of the following:

- Must comply with the Clinical Site’s dress code
- Clinical scrubs when indicated by clinical site

The student’s mode of dress **must** adhere to the proper safety regulations and requirements of the clinical site. Excessive amounts of jewelry and sandals are **NOT** to be worn while at the clinical site.

**NO JEANS OR SWEAT PANTS ARE TO BE WORN AT A CLINICAL SITE DURING SCHEDULED CLINICAL PRACTICUM.**

**Name Badge:** All DMS students will be required to wear a name badge. The name badge may be provided by the clinical site.

**Employment:** Students are encouraged **NOT** to work during the VSON program. Due to limited clinical site affiliations and scheduled workdays within the Ultrasound labs, students will be required to follow a rigid schedule during their clinical site portion of the program. Therefore, if a student chooses to continue to work while in the program, the clinical site schedule will not be altered or adjusted in any way to conform to the students’ personal work schedule.

**Holidays:** The DMS student’s schedule will **not** always follow the routine holiday schedule at Jackson College due to the extensive clinical requirement. Students will have the same holidays off as the clinical site (if it’s their regular schedule clinical day). Students are responsible for making arrangements prior to the time off to make the hours up.

The following are considered holidays for DMS students:

- New Year’s Day
- Memorial Day
- July 4th
- Labor Day
- Thanksgiving Day
- Christmas Day

**Each program has its own calendar; please consult appropriate program director.**
**Lodging:** Students driving an extended distance to commute are responsible for their own lodging arrangements.

**Student Conduct:** DMS students are expected and required to conduct themselves in a professional manner at ALL times of the DMS program.

**Confidentially:** The DMS students must acknowledge the importance of the protection of confidential information concerning patients and their families. Any and all information (official and unofficial) regarding a patient or his/her family is considered to be confidential and privilege information. **Any DMS student violating a patient's right to confidentiality will be dismissed permanently from the DMS program upon proof of such violation.**

**Vehicle Parking:** All DMS students are to park their cars in a designated area of a particular clinical site’s choice.

**Communicable Disease Policy:** To protect health care personnel from transmission by considering all patients as potentially infected with HIV and/or other blood-borne pathogens, and to adhere rigorously to infection control precautions for minimizing the risk of exposure to blood, bodily fluids, and moist body substances of all patients.

1. All health-care workers should routinely use appropriate barrier precautions to prevent skin and mucous-membrane exposure when contact with blood or other bodily fluids of any patient is anticipated. Gloves should be worn for touching blood and body fluids, mucous membranes, or non-intact skin of all patients, and for handling items or surfaces soiled with blood or body fluids. Gloves should also be worn during venipuncture or other vascular access procedures. Gloves should be changed after contact with each patient. Masks and protective eyewear or face shields should be worn during procedures that are likely to generate droplets of blood or other body fluids to prevent exposure of mucous membranes of the mouth, nose, and eyes. Gowns or aprons should be worn during procedures that are likely to generate splashes of blood or their body fluids.

2. Hands and other skin surfaces should be washed immediately and thoroughly if contaminated with blood or other body fluids. Hands should be washed immediately after gloves are removed.

3. All health-care workers should take precautions to prevent injuries caused by needles, scalpels, and other sharp instruments or devices during procedures; when cleaning used instruments; during disposal of used needles; and when handling sharp instruments after procedures. Refer to the policy and procedure manual of each clinical site for the specific methods for disposing of the objects mentioned above.

4. Although saliva has not been implicated in HIV transmission, to minimize the need for mouth-to-mouth resuscitation, mouthpieces, resuscitation bags, or other ventilation devices should be available for use in areas in which the need for resuscitation is predictable.
5. Health-care workers who have exudative lesions or weeping dermatitis should refrain from all direct patient care and from handling patient-care equipment until the condition resolves.

6. Pregnant health-care workers are not known to be at greater risk of contracting HIV infection than health-care workers who are not pregnant; however, if a health-care worker develops HIV infections during pregnancy, the infant is at risk of infection resulting from pre-natal transmission. Because of this risk, pregnant health-care workers should be especially familiar with and strictly adhere to precautions to minimize the risk of HIV transmission.

7. Body substances such as feces, airway secretions, and wound drainage, and urine always may contain potentially infectious organisms. The universal precaution system not only protects health-care workers from transmission of blood-borne pathogens, but also from other infectious agents found in moist body substances. Patients are protected from organisms present on the hands of personnel, and the staff’s hands are protected from acquiring new organisms.

**Academic Performance:** A VSON student must achieve a 2.0 in each course within the curriculum while they are in the program, and must maintain this overall GPA to receive the Associate of Applied Arts and Science Degree or the Certificate Degree. A student will be dismissed from the program if a required course in the program is unsatisfactorily completed.

Grades will be changed only for incomplete grades or faculty/clerical error. The last grade earned will be used in computing a student’s cumulative grade point average. All grades will remain on the student’s academic records and any grade not used to compute a student’s GPA will be designated. The complete credit hours will be counted only once for each degree/certificate purposes.

The DMS student must complete all course/program requirements for graduation within a maximum of two (2) years from their official beginning of their DMS Program.

**DMS Lab/Classroom:** Students are required to make their request to the DMS Instructor and/or Program Director when they wish to use the DMS lab outside of the scheduled lab/classroom hours. A Jackson College faculty member must supervise lab use at ALL times.

**Student Scanning Policy:** During the “Introduction to Clinical” course VSON students will be scanning each other. No student is required to be scanned. **Student's grades and evaluations will not be affected by participation or non-participation.** If they choose to be scanned, they do so at their own risk. Jackson College, the Program Director, or any Jackson College instructor or representative of the institution cannot be held liable for any condition and/or injury resulting from students scanning each other. Any scanning done by students will be done under the supervision of a designated VSON instructor. All VSON students MUST sign a scan release form (Exhibit D).
Attendance of Conferences: Jackson College and the DMS Program encourage continuing sonographic education. Students may wish to attend local, regional, or out of state ultrasound conferences. Clinical credit will be given for each hour of conference courses attended. The Program Director MUST approve each conference, prior to the student attending, if the student is seeking clinical credit hours from the college. The Program Director must receive proof of attendance before hours are applied to total clinical hours. Maximum hours for credit allowed are thirty-two (32).

Cheating: Cheating is defined as: copying another’s answers; giving answers on tests to another; bringing answers to a test situation; plagiarism including copying other students papers, etc.; forging competency evaluation forms; f orging or misrepresenting clinical hours; any other act which does not truly reflect the student’s progress. Any student found cheating in any DMS course will fail that course and a written warning will be issued following the due process procedure.

Drug Free Campus Policy: For the well-being and safety of all concerned, unlawful manufacturing, possessing, distribution, or the ingesting of controlled substances or illegal drugs such as, but not limited to, marijuana, narcotics, stimulants, depressants, and hallucinogens, are strictly prohibited on the college’s/clinical premises, equipment, job site, or during college activities.

No person shall report for work, no student shall report for class, and no person shall come on college/clinical premises while legally under the influence of alcohol or other illegal drugs. No person shall become impaired/intoxicated by the use of alcohol, controlled substances and/or illegal drugs on college/clinical premises.

Individuals who choose to violate the above becomes subject to institutional and legal sanctions. The college will cooperate with outside law enforcement agencies as they carry out their responsibilities both on and off campus.

Students found to be in violation of the college Drug Free Campus Policy will be subject to discipline and sanctions set forth in appropriate institutional manuals up to and including expulsion. Where applicable, individuals will also be subjected to local, state, and federal legal sanctions.

Cell Phones: While the Allied Health faculty recognizes that communication with family and friends is important, the use of cell phones and beepers in class is very distracting to other students and to your instructor. Please keep all electronic devise on either vibrate or voice mail mode during class. If you are experiencing a family emergency and must keep a cell phone on, please obtain instructor permission prior to class. We appreciate your cooperation in providing an environment conducive to learning for all students.

Vascular Societies: Students will join the Society of Vascular Ultrasound (SVU) while enrolled in the VSON program. Students will receive a discount for membership, $35.00 per year. Students must be enrolled prior to clinical I.
STUDENT CONDUCT/WARNING NOTICE PROCEDURE

VSON Students are expected and required to conduct themselves in a professional manner at all times. A student will receive a **verbal warning notice** as the first step of the probation process for unsatisfactory performance. A **written warning notice** is the second step of the probation process. These notices will be issued soon after the problem is identified. Progressive violations will warrant immediate removal from the program. Failure to improve behavior following a written warning will result in removal from the program.

The criteria for receiving a warning notice include (note – those marked may not be an all-inclusive list):

1. Unsatisfactory achievement of clinical objectives.
2. **Unsafe clinical practice.** It is understood that unsafe practice may include either a combination of several repetitive examples of the following:
   a. Errors in recording a pertinent clinical data
   b. Failure of safely adopting basic patient care skills to actual patient care situations resulting in actual or potential patient harm. This is relative to the degree of completion of the sonography program.
   c. Failure to demonstrate sound judgment relative to the student’s degree of sonography curriculum completion
   d. Unsafe or inappropriate diagnostic service to the patient
   e. Failure to follow universal precautions or blood-borne pathogens processes
3. **Failure to establish effective working relationships with clinical site team members and/or JC faculty.**
   1. **Failure to establish effective relationships with patients.**
4. **Violation of either the SDMS ([www.sdms.org](http://www.sdms.org)) or ASRT ([www.asrt.org](http://www.asrt.org)) codes of ethics.**
5. **Students are prohibited from being under the influence of alcohol or an illegal drug while at a clinical site, in class, or participating in other aspects of the program. If there is reason to believe that a student is under the influence of drugs and/or alcohol, they will be required to undergo drug and/or alcohol testing. If the student refuses to submit to a test or the student’s test returns a positive result, the student will be immediately removed from the program.**
6. **Failure to assume the responsibilities of a student in the DMS program:**
   a. Excessive tardiness
   b. Inappropriate personal appearance or inappropriate clinical behavior
   c. Unethical behavior, i.e., lying, cheating, stealing, etc.
   d. Repeated failure to submit required written work in the clinical area or repeated lateness in submitting work
7. **Failure to meet the course work and “Clinical Guidelines & Competency Levels” of the Jackson College DMS Program.**
8. **Failure to submit clinical documents such as, evaluation forms, time sheets, log sheets.**
9. **Failure to comply with Jackson College’s Student Code of Conduct or Student Rights and Responsibilities Handbook.**
10. **Failure to comply with HIPAA laws.**
11. **Failure to comply with program policies.**

*Serious violations will warrant immediate removal from the program without a verbal or written warning issued (note – those marked may not be an all-inclusive list).

**Student’s reply to the warning notice**

The student is required to reply to the warning notice **5 business days of the notice**, using the student corrective action reply (Exhibit E). The student’s reply must show evidence of problem solving regarding the identified unsatisfactory behaviors. The reply must include the following:

- Student’s perception of the problem
- Awareness of the seriousness of the Warning Notice
- Methods that will be utilized to correct problem

**Resolution of the warning notice**

At the end of the established probationary period, the student and the instructor will again have a conference to discuss the effectiveness of the corrective action taken. If the student has progressed to another clinical area during this time, the student will be evaluated by both the instructor who issued the Warning Notice and the current instructor.

1. If the student shows satisfactory improvement, the Warning Notice will be resolved. A written evaluation of the student’s progress will be submitted, signed and dated by both the instructor(s) and the student. This will remain on file until the student graduates. Copies go to the Program Director, the Clinical Instructor and the student.

2. If the behavior that originally elicited the warning notice reoccurs, the student will automatically fail the clinical portion of that course, thus fail the course and is dismissed from the DMS-program.

3. If the student does not show satisfactory improvement after receiving a warning notice, the recommendations of the issuing instructor will be followed.

**Changes in clinical schedule due to a warning notice**

When issued a warning notice, students:

1. May have their schedule changed if possible, by the Program Director in consultation to prevent loss of academic time.

2. Will be held back in their program by the Program Director if schedule rearrangement is not feasible.
Program Dismal

If a student should lose their clinical site, the Program Director will investigate to determine the validity of the dismissal. The student will be notified by the program director of the student’s status within the program.

Students will remain in all didactic courses and complete the current semester only.

After dismal the following steps are recommended:

1. Discuss with your program director whether there are any classes you can/should complete at this time.
2. Consult with the Office of The Student Ombudsman.
3. Meet with your Student Success Navigator in Student Services.
4. Refer to your program handbook for information regarding the reconsideration process.

The student is not eligible to reapply to the program and must follow the readmission process if they want to re-enter the program.

Re-Admission Exclusions:

Any dismissal considered a serious violation as listed in section- Student Conduct Warning Notice Procedure.

*Serious violations will warrant immediate removal from the program without a verbal or written warning issued (note – those marked may not be an all-inclusive list).

Appeal Process

Students should refer to the college’s academic complaint process located on the Dean’s webpage at www.jccmi.edu/administration/deans/StudentComplaintProcess.html.

Personal Problem Solving

If any DMS student is having difficulties maintaining the program course work, personal conflicts, or complaints regarding the program of the following individuals may be contacted to assist the student:

<table>
<thead>
<tr>
<th>Dean of Career and Technical Education</th>
<th>Jan Karazim</th>
<th>(517) 796-8502</th>
</tr>
</thead>
<tbody>
<tr>
<td>Allied Health Faculty Chairperson</td>
<td>Heather Ruttkofsky</td>
<td>(517) 796-8531</td>
</tr>
<tr>
<td>Vascular Program Director</td>
<td>Heather Ruttkofsky</td>
<td>(517) 796-8531</td>
</tr>
</tbody>
</table>
The name of Program Medical Director and a list of the current VSON Advisory Committee are available upon request from the Program Director.

Financial problems should be discussed with the Jackson College Financial Aid Department.

**Re-Admission to Sonography Program**

Criteria for appeal: loss of clinical site; failure of any program course

**Once the student is dismissed the only option is to be readmitted to the program is through the readmission process.** The readmission process consists of: the student will send a letter requesting re-admission to the Program Director and Chair of Allied Health. The request for re-admission letter must include:

1. The student’s perception of the problem leading to dismissal and explanation of contributing circumstances;
2. Demonstration of an understanding and awareness of the problem;
3. What the student has done to rectify the problem;
4. The student’s detailed plan for success in the sonography course to be repeated and future sonography courses if re-admitted.

The request will be forwarded to the Program Director. The Committee will be comprised of two allied health faculty other than the faculty directly involved in the dismissal, the Chair of Allied Health, and the Student Ombudsman. The Allied Health Department Re-Consideration Committee will meet as needed.

The student and faculty member involved in the dismissal will be informed by the Program Director of the time, date and place of the meeting. At the meeting, the student will present a detailed academic success plan. The faculty member involved in the dismissal will present an overview of the behaviors that led to the dismissal and his/her support for or against re-consideration. In absence of the involved faculty, the lead faculty of the course will present. The student has the choice of being present or not during the involved faculty’s presentation. The student and involved faculty will then be excused from the meeting.

The Allied Health Department Re-Admission Committee, after reviewing the student’s history, the documents described above, and faculty recommendation will determine if the student will be re-admitted to the sonography program using the readmission criteria found in Exhibit F. The Allied Health Department Re-Consideration will look for compelling evidence that the reasons for the dismissal can be corrected with certain changes, and that these changes improve the chances for a successful outcome. If the student is readmitted, the Allied Health Re-Admission Committee along with the Program Director will determine if additional courses must be repeated and will detail what other requirements (i.e. skills validation) are associated with the opportunity to repeat the failed course and continue in the program.

The Chair of Allied Health will notify the student in writing of the final determination and any re-admission conditions. Clinical site availability cannot be guaranteed.

**The decision of the Allied Health re-admission committee decision is final.** Once a student is dismissed from a DMS program and denied re-admission, that student
will not be allowed to apply for admission into any DMS program for three years who are not dismissed for serious violations as defined in the DMS handbook (Student Conduct Warning Procedure, page 11-12)

A student who applies for re-admission will need to have their written request received by the Allied Health Office by the following deadline:

**Vascular Sonography**- March 1 of the year the student is seeking reconsideration

**Application for National Registry Exams**

Upon successful completion of the DMS program, students can apply with the American Registry for Diagnostic Medical Sonographers (ARDMS) to take the registry exam. As the application process can change from time to time, it is recommended that students refer to the ARDMS website for instructions on the instructions on the application process. www.ardms.org

**Graduation & Commencement**

An application for graduation needs to be filed for each degree. Students should refer to the college’s Graduation & Commencement process located on Jackson College’s webpage at http://www.jccmi.edu/StudentServices/Registration/graduation.htm
Dear Student:

The Health Certificate Form (Exhibit A) must be completed by the physician of your choice for the sole purpose of determining and documenting your physical status prior to the clinical component of your Allied Health Program.

This medical statement must be completed and uploaded to Castle-Branch prior to clinical semester.

I strongly suggest that you retain a copy for your own records.

Sincerely,

Heather Ruttkofsky
Program Director
Exhibit A

Jackson College

Health Certification Form
Allied Health & Nursing Departments

Jackson College’s Departments of Allied Health & Nursing require that each student furnish the following documentation:

1. A Statement of Physical/Emotional Fitness
2. Current Health Provider CPR certification
3. Verification of Immunization Status
4. Health Insurance

The completed Health Certificate Form and copies of the required records must be provided before the student may begin clinical course studies. Students will not be allowed in clinical if current documentation is not submitted.

A. Identification

<table>

<tr>
<th>Student’s Name:</th>
<th>Student ID Number:</th>
</tr>
</thead>
</table>

B. Statement of Physical/Emotional Fitness (MUST BE COMPLETED BY A PHYSICIAN, PHYSICIAN ASSISTANT, OR NURSE PRACTITIONER). Please review the attached technical standards and functions for ______________________________________ (insert program of study).

I have reviewed the attached technical standards and functions for this student’s program of study and in my judgment this student is physically and emotionally capable of participating in the Jackson College Health Occupation program indicated above.

__________________________________________
Signature of physician, physician assistant, or nurse practitioner

__________________________________________
Type or print name of physician, physician assistant, or nurse practitioner

__________________________________________
Address
Any student with a condition that could impact decision making or the physical ability to provide client/patient care must discuss his/her condition with the program director for his/her program of study.

Immunization Requirements
According to the Center for Disease Control (CDC), all healthcare personnel (HCP) must show evidence of immunity to measles, mumps, rubella and varicella. In addition, due to the potential exposure to blood or bodily fluids and risks related to direct patient contact, the CDC recommends that HCP protect themselves with vaccinations against Hepatitis B and Tetanus/Diphtheria/Pertussis and be screened for Tuberculosis. Jackson College students must provide documentation of compliance with the CDC Healthcare Personnel Recommendations. Documentation of immunity must be a copy of an official immunization record or copies of lab reports indicating positive titers (self reporting or parent’s record of disease or vaccinations is not acceptable). See the back of this for a listing of immunization requirement.
All Required Documentation Must Accompany This Form
CPR & TB Must Remain Current throughout the duration of the program

C. CPR Certification and Immunization Checklist:

1. CPR Certification (BLS for Health Care Provider via The American Heart Association)
   - Upload copy of both the front and back of card to CastleBranch

D. Required Immunizations:
Submit Copies Of An Official Immunization Record Or Lab Reports For The Following Immunizations. Keep Originals For You Own File

1. Rubella (German Measles)
   - Documentation of 2 doses of MMR 4 weeks apart OR a positive Rubella titer
2. Rubeola (Hard Measles)
   - Documentation of 2 doses of MMR 4 weeks apart OR a positive Rubeola titer
3. Parotitis (Mumps)
   - Documentation of 2 doses of MMR 4 weeks apart OR a positive Mumps titer
4. Varicella (Chicken Pox)
   - Documentation of 2 doses of Varicella given 28 days apart OR a positive Varicella titer
5. Diphtheria/Tetanus/Pertussis (TD or Tdap)
   - Documentation of a booster within the past 10 years. If booster is needed recommend a Tdap
6. Hepatitis B
   - Documentation of 3 dose Hepatitis B series at 0-1-6 month interval OR a positive Hep B surface antibody titer

E. Two Step Tuberculin Skin Test (TST):
Submit The Following

1. Documentation of first negative TST
2. Documentation of second negative TST, within 7-21 days from the first negative TST
3. If first TST is positive you need documentation from your health care provider of evaluation and treatment OR chest x-ray that has been in the past 12 months.
4. Two consecutive annual single step test. Second test must be administered within the past 12 months
5. Negative QuantiFERON Gold blood test, administered within the past 12 months
6. Negative T-Spot blood test administered within the past 12 months
F. Seasonal Flu Shot
Submit Dates and Lot Numbers For The Following:

1. Documentation of Flu Vaccination and lot #

NOTE: It is the student’s responsibility to keep their health record updated and evidence submitted to CastleBranch prior to the expiration date. Failure to do may result in the inability to participate in the program.

By signing below I give my permission for Jackson College to release any and all information contained in this record to any clinical facility that I am assigned to. I also understand that I am responsible for the accuracy of the information I have provided and that I am required to notify Jackson College if there is a change in my health that could potentially impact my ability to participate in my program of study. I further acknowledge that failure to provide accurate and complete health records and/or failure to notify Jackson College of a change in my health that could potentially impact my ability to participate in my program of study could result in me being dismissed from my program of study.

TECHNICAL STANDARDS FOR ADMISSION

NURSING AND ALLIED HEALTH DEPARTMENT JACKSON COLLEGE

The Nursing and Allied Health Department faculty has specified the following non-academic criteria which applicants generally are expected to meet in order to participate in the Department of Nursing and Allied Health Sciences programs and professional practice. These technical standards are necessary and essential and have been developed to provide for the health and safety of the patients receiving care from the Nursing and Allied Health Department program students.

OBSERVATION – The applicant must be able to participate in all demonstrations, laboratory exercises and clinical practicum in the clinical component and to assess and comprehend the condition of all patients assigned for examination, diagnosis and treatment.

- Vision enough to see fine detail, and sufficient to be able to read and accurately complete reports in charts, vision sufficient to differentiate shades of gray and color, to observe patient’s skin color, measuring exact amounts of parenteral medications and diagnostic real-time images.

COMMUNICATION – The applicant must be able to communicate with patients to effectively elicit patient compliance, understand and assess non-verbal communications; and be able to effectively transmit information to patients, physicians, paraprofessionals, faculty and staff in a timely way.

- Speech sufficient to be understood by others; ability to understand the communication with patient and health care team. Hearing sufficient to understand the spoken word, hear variations in physical assessment findings, auscultate lung sounds, hearts sounds, bowel sounds. Hearing sufficient to differentiate Doppler signals.

PSYCHOMOTOR – The applicant must have motor functions sufficient to elicit information from patients by appropriate diagnostic or therapeutic maneuvers; be able to perform basic tasks; possess all necessary skills to carry out diagnostic or therapeutic procedures; be able to interpret movements reasonably required to provide general care and emergent treatment/actions as necessary for patient safety and comfort.

- Physical coordination including fine motor functions sufficient to perform procedures accurately, operation of instrument panels, position patient efficiently and safely
- Sufficient muscle strength and lower back and knee stability to lift patients in a safe manner, physically assisting patients, moving beds and equipment. Able to stoop when necessary.

INTELLECTUAL / CONCEPTUAL INTEGRATIVE AND QUANTITATIVE ABILITIES – The applicant must be able to measure, calculate reason, analyze, evaluate, and synthesize information and observations. Problem solving, the critical skill demanded of Allied Health Practitioners, requires all of these cognitive abilities. In addition, the applicant must be able to comprehend three-dimensional structures and understand the spatial relationships of these structures.

- Sufficient psychological stability and knowledge of techniques/resources to be able to respond appropriately and efficiently in emergent situations in order to minimize dangerous consequences either patient related or environment related.
BEHAVIOR AND SOCIAL ATTRIBUTES – The applicant must possess the emotional health required for full utilization of intellectual abilities; execute appropriate medical judgment; the prompt completion of assigned or non-assigned responsibilities for care of and service to the patient; and the development of supportive and effective relationships with patients. Applicants must be able to tolerate physical and mental workloads, function effectively under stress, adapt to changing environments and conditions, display flexibility and function in the face of uncertainties inherent in the clinical setting and with patients. Compassion, integrity, concern for others, interest and motivation are personal qualities with each applicant should possess.

- Sufficient endurance to walk for extended periods of time, up to twelve hours per day.
- Ability to learn technical, medical, and pathophysiological information.
- Free of Chemical Impairment during participation in program including classroom, laboratory and clinical settings.

You need to be able to perform each of these tasks with or without accommodation. If an accommodation is necessary because of a disability it is your responsibility to provide documentation and to request accommodation. The college will endeavor to satisfy requests for reasonable accommodations however it is not guaranteed.

TECHNICAL STANDARDS AND FUNCTIONS THAT ARE REQUIRED TO SUCCESSFULLY COMPLETE AN ASSOCIATE IN APPLIED SCIENCE DEGREE IN VASCULAR SONOGRAPHY

<table>
<thead>
<tr>
<th>STANDARDS</th>
<th>FUNCTIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vision sufficient to differentiate shades of gray and color and to observe diagnostic real-time images. Vision sufficient to delineate ill-defined structures, borders, anatomical structures and pathological entities in three-dimensional projections.</td>
<td>Scanning with real-time Sonography system for the purpose of delineating normal anatomical structures from abnormal pathological entities.</td>
</tr>
<tr>
<td>Vision sufficient to be able to read and accurately complete reports and charts.</td>
<td>Reading and completing of charts, reports and interpretation of requisitions.</td>
</tr>
<tr>
<td>Speech sufficient to be understood by others; ability to understand the communication of others.</td>
<td>Communicating with patients, and other health care professionals.</td>
</tr>
<tr>
<td>Hearing sufficient to differentiate Doppler signals.</td>
<td>Conduct Doppler studies of anatomical arterial and venous structures for the purpose of diagnosing abnormal blood flows and pathological states.</td>
</tr>
<tr>
<td>Vision and physical coordination sufficient to perform scanning tasks accurately, efficiently and safely.</td>
<td>Manipulating of transducer while observing real-time image and conducting diagnostic study.</td>
</tr>
<tr>
<td>Sufficient fine motor functions and coordination to perform tasks involving manipulation of scan probes, instrument panels, patient position and safety.</td>
<td>Obtaining diagnostic real-time images for diagnostic interpretation.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Sufficient muscle strength, lower back and knee stability to handle patients in a safe manner.</td>
<td>Lifting and transferring of patients, physically assisting patients, moving and manipulation of ultra-Sonography systems.</td>
</tr>
<tr>
<td>Sufficient psychological stability and knowledge of techniques/resources to be able to respond appropriately and efficiently in emergent situations in order to minimize dangerous consequences either patient related or environment related.</td>
<td>Recognizing and responding appropriately in emergency situations.</td>
</tr>
<tr>
<td>Ability to sit or stand for extended periods of time, up to 7-8 hours per day.</td>
<td>Scanning requires sitting or standing for extended periods of time.</td>
</tr>
<tr>
<td>Ability to learn technical, medical, and pathophysiological information.</td>
<td>Completion of clinical and didactic components of program requires ability to learn.</td>
</tr>

REQUEST TO SCHEDULE CLINICAL ABSENCE

Student Name: ________________________________ Date: ___________

Requested date of absence(s): ________________________________

Semester:  DMS 161 ______ DMS 265 ______ DMS 266 ______

Clinical Education Center: __________________________________________

Note: Jackson College does not award sick days or personal days. If a student is (unexcused) absent 2 or more days per semester a written warning will be issued and the student will be dismissed from the DMS VSON program if any additional days are missed. All absences, including doctor appointments must be approved by the program faculty and clinical site instructor.

Please denote: 1st Sick Day, 2nd Sick Day, etc. Describe your plan to make-up the missed clinical time.

Student’s signature: ________________________________

Clinical Coordinator’s signature: ________________________________

Program Director’s signature: ________________________________

Directions: Complete this form at least one week prior to requested date of absence. Give copies to the clinical coordinator, clinical instructor, and the program director. Retain one copy for your own records.

This form may be revised as necessary by the Program Director.
Exhibit D

Scan Subject Release Form

I __________________________ give my permission to be a scan subject for the Jackson College Sonography Programs.

I understand that if, while being scanned any questionable scan appearances are noted by the instructors, that I will seek my own medical service and advice as suggested by any DMS instructor.

I further release Jackson College of any responsibilities for any and all physical/mental conditions that may be believed to have resulted from any scanning session whereby I was utilized as a scan subject.

I further agree to monitor the time I was scanned and to complete accurate scan time reporting sheets as directed by the DMS instructor/s.

| • Problem-solving actions to overcome the problem(s)  
• Plan must be specific, goal oriented | Does not communicate awareness of the problem- and problem-solving actions | Partial communication of the problem; poorly presented plan to rectify the problem | Plan fully communicated awareness of the problem, contributing factors and a plan to correct or rectify problem. | |
| Individualized Plan of Action | Does not communicate perception and analysis of the problem- and problem-solving actions | Partially communicates perception and analysis of the problem- and problem-solving actions | Plan fully communicates perception and analysis of the problem- and problem-solving actions | |
| • Student’s perception of the problem leading to dismissal/withdrawal.  
• Analysis of factors that lead to failure/dismissal/withdrawal which demonstrate an awareness of the problem. | | | | |
| Exhibited professionalism in behavior and communication during formal re-admission process. | Inappropriate communication, failure to upload required documents, no call, no show for appointments. | Unclear communication, partially uploaded documents, late for scheduled appointments. (Dress non-business casual formal face-to-face meeting). | Communicated clearly and concisely, uploaded all documents in a timely manner, Arrived on time. (Dressed business casual formal face-to-face meeting). | |
**SCORING RUBRIC:**

0-5 = Student candidate does not meet minimum criteria for re-admission  
6-7 = Student candidate meets minimum criteria for re-admission  
8 = Student exceeds minimum criteria for re-admission
Testing Accommodations

AMERICANS WITH DISABILITIES ACT (ADA)

ARDMS provides reasonable testing accommodations in compliance with the Americans with Disabilities Act (ADA). Under the ADA, a disability is a physical or mental impairment that substantially limits one or more major life activities. Having a diagnosed impairment does not necessarily mean that an individual is disabled as defined by the ADA, and not all disabilities require test accommodations.

Test accommodations are adjustments or modifications of standard testing conditions designed to allow candidates with disabilities to take the examination without compromising its validity, providing an unfair advantage to disabled candidates or imposing undue burdens on ARDMS.

If you are an Applicant seeking accommodation, you must submit, along with your completed application:

1. An original letter, dated within the past five years and typed on official letterhead, from a qualified physician or health provider who specializes in the disability. This letter must document the disability and its severity, describe the applicant’s limitation due to the disability, and state exactly what accommodations are recommended. The letter must contain an original signature and the physician’s or health professional’s credentials;
2. An original, current, detailed, comprehensive medical evaluation/report of the diagnosed disability from the physician or health professional, dated within the past five years; and
3. A completed ARDMS Special Accommodations Questionnaire which must be submitted each time you apply for examination.

Review of applications containing a request to receive ADA accommodations may require an additional 30 days to be completed.

Documentation submitted by an applicant in support of a request is reviewed by ARDMS and may be forwarded to an independent medical expert for impartial professional review.

ARDMS may request additional documentation to support the request. All information will be kept confidential and will be used only to determine what, if any, test accommodations will be made.

Approved accommodations will be included in the Examination Confirmation Letter, sent to you via email and also available through MY ARDMS account, under “My Examinations/Application Status” found under the “Application Center” tab. The email will include the test vendor’s telephone number and you should call the test vendor to schedule an examination appointment with the approved accommodations.

Note: All supporting documentation must be received before processing. Incomplete or illegible applications or questionnaires may be refunded, minus the non-refundable examination processing fee per examination.

Accommodations for Students with Disabilities:
If a student has a documented learning disability, visual or hearing impairment, psychiatric issue, or other physical or psychological challenge that interferes with learning, the Center for Student Success (CSS) can arrange accommodations for each student’s classes in compliance with the American Disabilities Act. Based on the student’s particular needs, accommodations may include but are not limited to:
• Extended testing time
• Quiet testing location
• Assistive technology
• Note takers
• Alternative text formats
• Sign language interpreter
It is the student’s responsibility to self-disclose a disability. Once documentation has been provided, CSS can arrange accommodations with instructors each semester.

Center for Student Success | Accommodations for Students with Disabilities
Student Acknowledgement of Receipt of the VSON Handbook Form

I hereby acknowledge that I have received, read and understand the Jackson College VSON Student Handbook. I further agree to follow all policies and procedures within the handbook.

I understand while attending the clinical site of the VSON program I am expected to follow all reasonable rules and regulations of policies and procedures of the assigned clinical site.

I understand that failure to abide by these rules and regulations may result in dismissal from the VSON Sonography program.

I further understand that my signature below would allow personnel from the accrediting body, JRC, to review my student file during a formal audit of the VSON program.

DATE: ______________________________

NAME: __________________________________________

SIGNATURE: _______________________________________

This acknowledgement form needs to be completed and submitted to the Allied Health Office (JW 231) within ten days after receipt of the VSON Student Handbook.

Vascular Sonography Program Accreditation

The Vascular Sonography Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (www.jrcdms.org).
