# Wireless FAQs for Windows 8

#### Step One

- 1. Open **Connect to a Network** by clicking the network icon( or **b**) in the Notification area in the bottom right corner of the desktop.
- 2. Click on the JC-WiFi network. You can connect automatically by checking the box when you choose JC-WiFi. After that hit connect.

	Networks	
	View Connection Settings	
	Airplane mode	
	Off	
	Wi-Fi	
	On	
5	JC-WiFi_CE Connected	
	JC-WiFi	
	Connect automatically	2
	Connect	
	Gaming	

#### Step Two

1. After selecting **JC-WiFi** you will be given the option to **Connect** or **Don't Connect**, also an option to view the certificate. Choose **Connect**.

	Networks
1	Continue connecting? If you expect to find JC-WiFi in this location, go ahead and connect. Otherwise, it may be a different network with the same name. Show certificate details Connect Don't connect

### Step Three

1. A Windows Security Window will appear, asking for **Network Authentication**, enter your **JC User Name** and **Password** and click **OK**.

	Networks
1	Enter your user name and password
	User name Password
	Connect using a certificate

## Step Four

1. After you have put in your credentials you will be **Connected.**
