

Requirements for Requesting Testing Accommodations for Applicants with Disabilities

Policy

AMT supports the intent of the *Americans with Disabilities Act* (ADA) and will provide reasonable accommodations during testing to provide equal opportunities for applicants with disabilities.

General Information

All requests for special accommodations should be made at the time of **initial application** to AMT, **before** authorization to take an exam is given. The testing accommodation application and supplemental material must be received by AMT **prior** to scheduling a testing appointment. Applicants are reminded that not all individuals with disabilities require special test accommodations. AMT will only offer accommodations as appropriate and evaluates each application on a case-by-case basis. AMT holds the right to refuse any accommodation if the disability is not supported by the documentation or if offering a particular accommodation “would fundamentally alter the measurement of the skills or knowledge of the examination as intended to test or would result in an undue burden.” (Americans with Disabilities Act, Public Law 101-336 309[b][3]; see 28 C.F.R. 36.309(b)(3)).

Review of Documentation

All requests for accommodations must be accompanied by the documentation material outlined in the checklist. (*Detailed explanations of the required elements appear on the last page of this application.*) All materials must be provided to AMT in a single submission. Incomplete applications will not be processed. Each application is reviewed carefully by the AMT Office and/or the EQS Committee before accommodations are provided. AMT will render a decision and notify applicants **within 30 days** of receiving the application. If accommodations are not granted the applicant may appeal the decision. For additional information on the appeals process, please contact the AMT Registrar’s Office.
