**BOARD POLICY:** EXECUTIVE LIMITATIONS – EL-05 Asset Protection

**Description:**

With the sale of the previously named W. J. Maher Campus, our Foundation has discussed and received consent to reallocate the W. J. Maher name to the Hanger building on Central Campus. Enclosed is the proposal presented to Peggy Maher (daughter of William J. Maher) to rename the Jets Hanger in honor of her father.

Per Board and College policy, this requires the approval of the CEO and Board.

**Resource Impact:**

None

**Requested Board Action:**

Approval of the W. J. Maher name allocation upon the Hanger building.
THE W.J. MAHER HANGAR
PROPOSAL
THE W.J. MAHER HANGAR

Aviation related art and quotes currently run around the perimeter of The Hangar space.

Your WINGS already exist, all you have to do is FLY.

If you want to FLY, you must give up what WEIGHS YOU DOWN.
When **FEARS** are grounded, dreams **TAKE FLIGHT**.

The moment you doubt whether **YOU CAN FLY**, you cease forever **TO BE ABLE** to do it.
Aircraft, hung from the ceiling, has been painted with Jackson College branding.
6’ by 12’ banners, depicting JC students and the programs they are pursuing, hang from the ceiling surrounding the aircraft.
W.J. Maher plaque hung by the building reception desk.
Interior signage displayed on TV monitors.

Welcome to the W.J. Maher Hangar
Exterior signage at entrance.
Interior storage / display space for memorabilia - shelving / locked cabinet(s).
Students utilize the Hangar on a daily basis for a variety of reasons. Some include but are not limited to: sharing time for recreation (pool, ping pong, life-size chess), food service from Jax Place, relaxing, academics and mailboxes for housing residents.

Outside areas (weather permitting) include: grill space, sand volleyball court, basketball and other games.

The Hangar also houses space for the Jets Esports team.

The Hangar is also used for planned Student Life events that include: movie nights, dances, team building activities and just plain fun!

**BOARD POLICY:** EXECUTIVE LIMITATIONS: EL-12 Land Use

**Resource Impact:**

**Requested Board Action:**

Board assessment of the report for Policy EL-12 for evidence of full compliance with a reasonable interpretation of the policy.

**Action Taken:**

Jackson College  
Board of Trustees  

Monitoring Report:  
EL – 12 Land Use  

Report Date: 04.15.24  
Report Status: Fully Compliant  

Note: Board Policy is indicated in bold typeface throughout the report.  

I present this monitoring report to the Jackson College Board of Trustees which addresses the Board’s Executive Limitations Policy: “Land Use”. I certify that the information contained in herein is true and represents compliance, within a reasonable interpretation of the established policy, unless specifically stated otherwise below. Please note that all of my interpretations of the policy remain unchanged from the previous report, unless otherwise noted.  

Daniel J. Phelan, Ph.D.  
President and CEO  

04.15.24  
Date  

POLICY STATEMENT:  
The CEO shall not allow development of the campus or other College lands in a manner that is inconsistent with the core business of the College, environmentally irresponsible, aesthetically displeasing, or that does not make the most effective use of land.  

INTERPRETATION:  
The Board has further clarified “development that is inconsistent with the core business of the College” in policy items #1 and #2 below; “environmentally irresponsible” in policy item #3; and “aesthetically displeasing” in items #2 and #3; and “effective use of land” in policy items #1, #3 and #4 below. I interpret compliance with those four items will constitute compliance with this policy.  

This interpretation is reasonable because it addresses, below, all aspects of the global policy statement.
Further, without limiting the scope of the above statement by the following list, the President shall not:

1. **Allow the College to be without a long-term land use plan for future development that will avoid infrastructure redundancy and redevelopment costs.**

   **INTERPRETATION:**
   I have interpreted that compliance will be demonstrated when:
   a) There is an infrastructure plan documenting all existing utilities (gas, water, sanitary and storm sewers, electrical, and structured cabling) below ground prepared.
   b) There is a site development plan documenting all existing and future sites of performance spaces, fields, storage, parking lots, sidewalks, buildings, and roads.

   This interpretation is reasonable because an infrastructure plan is widely recognized in the industry as providing decision-making data necessary for any future development. Further, the infrastructure map of existing utilities, as well as the site development plan, are consistent with architectural, engineering and construction codes, and all legal requirements necessary for any development to proceed.

   **EVIDENCE:**
   a) On 03.31.24, the Chief Facilities & Logistics Officer confirmed that an infrastructure map exists in AutoCAD and that a deferred maintenance plan is in place as of 01.21.22. The deferred maintenance plan is a evolving document that is updated annually based on useful life cycles and other facility usage milestones and regulations. Additionally, a third-party contractor, (i.e., Parsons Group, of Grand Rapids, Michigan) has provided a scope of work and completed an in-depth deferred maintenance assessment in October 2023. A full-time employee has been reassigned to coordinate Deferred, Corrective and Preventative maintenance.
   b) On 03.31.24 the Chief Facilities & Logistics Officer confirmed that the current master plan projects will be updated following the completion of the Jet’s Air Station, and Instrumental Music Studio – i.e., approximately by June 2024.

   Based upon this evidence, I am reporting compliance with item #1.

2. **Permit joint ventures or partnerships that do not provide for design and construction standards consistent with overall campus design.**

   **INTERPRETATION:**
   I have interpreted that compliance will be demonstrated when:
a) Contracts for joint venture partnerships specify that proposed building designs are consistent with, and complementary to, existing campus design philosophy, facility design, and operational elements; and

b) As president, I approve all joint ventures and partnerships, in part, according to other Board Executive Limitation Policies.

This interpretation is reasonable because it ensures that the College-determined requirements for consistency with campus design are maintained and ultimately reviewed by the Board’s CEO.

EVIDENCE: For this last monitoring period, there were no joint venture partnerships to report upon. Based upon this evidence, I am reporting full compliance with item #2.

3. Permit development, new construction or reconstruction that is not energy efficient or does not, to a reasonable extent, minimize adverse environmental impacts and preserve the natural landscape.

INTERPRETATION: I have interpreted that compliance will be demonstrated when:

a) All development projects have met construction regulations set by local, state, federal environmental entities;

b) A third party natural landscaping expert confirms that all College planned projects include complementary natural landscape elements; and

c) Project design provide for energy efficient, low-cost operation and considers the use of ‘green building design’ Leadership in Environmental Design (LEED) certification standards.

This interpretation is a reasonable interpretation because it considers industry standards, as well as meets regulations set forth by local, state, and federal bodies. Further, LEED standards were developed by the external Green Building Council, as a globally accepted, building rating system, for every type of building, guiding construction methods, that provide for healthy, efficient, and cost-saving buildings, both in terms of construction methods, as well as in building operations.

EVIDENCE: a) The Chief Facilities & Logistics Officer confirmed on 03.30.24 that the College meets with Summit Fire Department; County Drain Commissioner; State of Michigan Building and Permits Division; State of Michigan Environment, Great Lakes and Energy; and the State of Michigan Bureau of Fire Services and other relevant agencies as needed and required. These partnerships have been strengthened during the past two years.
b) The Chief Operations Officer confirmed on 03.30.24 that Architects and Engineers were hired for site planning for the following projects during the monitoring period:

- Baughman Renovation;
- Instrumental Music Studio;
- Baughman and Ruth Day Lighting Project;
- Jet’s Air Station; and the
- Astronomical Observatory

c) The Chief Facilities & Logistics Officer confirmed on 03.30.24 that the College considered energy efficient standards by industry experts for the following projects during the monitoring period:

- Building Automation for Heating and Cooling Systems, HEERF and ASHRAE updates
- Lighting Updates CV3, and Campus Services.

I am, therefore, reporting full compliance with item #3.

4. Permit new development that does not meet at least one of the following criteria:
- Provision of enhanced learning and ancillary space consistent with ENDS achievement.
- Extending the College’s alliances with business, industry, colleges, universities, or other organizationally mission-compatible non-profit organizations.
- Creation of opportunity to generate new revenue streams.
- An opportunity to differentiate the College’s learning and co-curricular environment.
- Positioning the College as a leader in new programs targeted at future market opportunities.

INTERPRETATION:
I have interpreted that compliance will be demonstrated when:

a) When all undertaken projects are consistent with at least one of the criteria listed in this policy section.

b) At least one of the six aforementioned thresholds are achieved and is documented.

This interpretation is reasonable because the Board has identified the aforementioned specific criteria to be met, and requires the CEO to provide explicit demonstration of compliance, through monitoring, with said criteria.

To assist the full Board of Trustees in their work of annual policy reviews, Trustees will be assigned specific policies to which they will lend their enthusiasm, experience, and/or expertise toward a pre-review.

Via this pre-review, Trustees will offer recommendations for amendments (or lack thereof) to their assigned policies at the respective Board meeting at which the policy is up for review, for the consideration of the full Board.

**Procedural Steps:**

1. Annually at the Board’s Summer Retreat, Trustees will discuss the specific policies they will pre-review for the upcoming fiscal year via the attached schedule.

2. At least two (2) Board members may be assigned to the pre-review for any given policy.

3. Trustees will offer their recommendations for amendments (or lack thereof) to the full Board via the Board packet 1 week prior to the Board meeting at which the policy is up for review.

4. The Chief Assistant to the President & CEO will assist in coordinating pre-review meetings as requested. The recommendation is to conduct the initial review of assigned policies one month in advance of the Board meeting at which recommendations are scheduled to be presented to the full Board. This initial review could take place at 5:00pm prior to a Board meeting dinner.

5. Pre-review meetings will include the participation of the CGO, CEO, and/or other Policy Governance consultant.
