

Fact Sheet PUBLISHED JULY 2025

The Economic Value of Jackson College

Jackson College (JC) creates a significant positive impact on the business community and generates a return on investment to its major stakeholder groups—students, tax-payers, and society. Using a two-pronged approach that involves an economic impact analysis and an investment analysis, this study calculates the benefits received by each of these groups. Results of the analysis reflect fiscal year (FY) 2023-24.

Economic impact analysis

In FY 2023-24, JC added **\$301.8 million** in income to the JC Service Area economy, a value approximately equal to **2.2%** of the region's total gross regional product (GRP). Expressed in terms of jobs, JC's impact supported **3,674 jobs**. For perspective, the activities of JC and its students support **one out of every 37 jobs** in the JC Service Area.

Operations spending impact

- JC employed 529 full-time and part-time faculty and staff. Payroll amounted to \$29.0 million, much of which was spent in the region for groceries, mortgage and rent payments, dining out, and other household expenses. The college spent another \$19.9 million on its expenses related to facilities, supplies, and professional services (excluding construction).
- The net impact of the college's operations spending added \$34.6 million in income to the regional economy in FY 2023-24.

Construction spending impact

- JC invests in capital projects each year to maintain its facilities, create additional capacities, and meet its growing educational demands, generating a short-term infusion of spending and jobs in the regional economy.
- The net impact of JC's construction spending in FY 2023-24 was **\$2.5 million** in added income for the JC Service Area.

Student spending impact

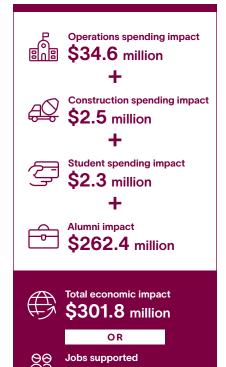

- Around 24% of students attending JC originated from outside the region. Some of these students relocated to the JC Service Area. In addition, some in-region students, referred to as retained students, would have left the JC Service Area for other educational opportunities if not for JC. These relocated and retained students spent money on groceries, mortgage and rent payments, and other living expenses at regional businesses.
- The expenditures of relocated and retained students in FY 2023-24 added \$2.3 million in income to the JC Service Area economy.

Alumni impact

- Over the years, students have studied at JC and entered or re-entered the workforce with newly acquired knowledge and skills. Today, thousands of these former students are employed in the JC Service Area.
- The net impact of JC's former students currently employed in the regional workforce amounted to \$262.4 million in added income in FY 2023-24.

* For the purposes of this analysis, the JC Service Area is comprised of Jackson, Hillsdale, and Lenawee Counties.

Impacts created by JC in FY 2023-24

Student perspective

- JC's FY 2023-24 students paid a present value of \$11.9 million to cover the cost of tuition, fees, supplies, and interest on student loans. They also forwent a value of \$13.3 million in time and money had they been working instead of attending college.
- In return for their investment, students will receive a cumulative present value of **\$147.1 million** in increased earnings over their working lives. This translates to a return of **\$5.80** in higher future earnings for every dollar students invest in their education. Students' average annual rate of return is **21.3%**.

Taxpayer perspective

- Taxpayers provided JC with **\$24.8 million** of funding in FY 2023-24. In return, they will benefit from added tax revenue, stemming from students' higher lifetime earnings and increased business output, amounting to **\$53.1 million**. A reduced demand for government-funded services in Michigan will add another **\$5.4 million** in benefits to taxpayers.
- Total taxpayer benefits amount to **\$58.5 million**, the present value sum of the added tax revenue and public sector savings. For every dollar of public money invested in JC, taxpayers will receive **\$2.40** in return over the course of students' working lives. The average annual rate of return for taxpayers is **5.9%**.

Social perspective

- In FY 2023-24, Michigan invested \$73.3 million to support JC. In turn, the Michigan economy will grow by \$657.6 million over the course of students' working lives. Society will also benefit from \$16.3 million of public and private sector savings.
- For every dollar invested in JC in FY 2023-24, people in Michigan will receive \$9.20 in return, for as long as JC's FY 2023-24 students remain active in the state workforce.
