

## JCC OFFICIAL COURSE OUTLINE

### Course number, title and credits; total time allocation

Course Number	<u>NUR 247</u>	Credits	<u>2</u>	Title	<u>Mental Health Transition</u>			
Lecture/Discussion	<u>15</u>	hrs/semester	Lab	<u>          </u>	hrs/semester	Clinical	<u>45</u>	hrs/semester

### Catalog Description and Pre- and Co-requisites (Same as taxonomy and catalog)

Students engage in learning experiences that promote satisfactory assimilation of fundamental mental health and mental illness concepts in their delivery and application of the nursing process with clients and family systems. A clinical component will be provided for students to demonstrate mental health nursing care to clients with self-care deficits within the wholly and partially compensatory and educative-supportive nursing system.

**Prerequisite:** Admission to the TNUR AAS. LPN to ADN transition program

**Co-requisites:** NUR 124, NUR 172

### Knowledge, Skills and Abilities Students Acquire from this Course (Educational Objectives)

#### COURSE OBJECTIVES:

##### Nurse as a Provider of Care:

1. Utilizes individualized therapeutic interaction techniques in communicating with diverse patient populations (including patient's significant others) across the life span.
2. Accurately employs the nursing process in providing comprehensive mental health nursing care to individual patients and patient systems in supportive-educative, partially and wholly compensatory nursing systems.
3. Discusses and describes based upon the nursing process how mental health promotion and mental health nursing interventions are fundamental to the therapeutic resolution of physiologically based self-care deficits.
4. Correlates etiology associated with alterations of neurological functioning, genetic patterns & alterations of neurotransmission specific to DSM-5 classified mental health disorders.
5. Demonstrates psychiatric-mental health nursing assessment of patients utilizing accepted mental health (including the mental status exam) and physical assessment techniques.
6. Applies mental health nursing principles and mental health promotion concepts consistent with legal, professional and ethical standards in identifying self - care requisites and the potential for self - care by the patient/patient system.

##### Nurse as a Manager of Care:

1. Professionally communicates with the multi-disciplinary health care team and reflects an accurate application of mental health nursing principles specific to the referenced patient/patient system.
2. Utilizes the evaluation process of the Nursing Process for self-growth and awareness and as a basis for the ongoing evaluation of safe, competent care.

##### Nurse as a Member of the Discipline:

1. Demonstrates behaviors characteristic of a professional nurse.
2. Accurately discusses the relationship of the legal and professional role and scope of the AAS-N graduate in relation to the practice of psychiatric -mental health nursing regardless of the setting in which care is delivered.

**Associate Degree Outcomes Addressed in this Course** (These must appear in course syllabus.)

ADO 5: Understanding Human Behavior at the proficient level.

ADO 10: Diversity at the proficient level.

**Units/topics of Instruction**
