

Starry Night Fundraising Event – Blockchain Exercise

 		Community members receiving their genesis block as PI Angel Fonseca provided keynote introduction of evening and explanation of blockchain technology exercise.
		Lego™ pieces stationed around the campus tour spots.
		Community members retrieving a Lego™ piece for the exercise.
		Community members walking through campus, transparently carrying a lanyard with the block they were building along the way.
		PI Fonseca explained blockchain concepts such as decentralization, immutability, transparency, and consensus as attendees inspected and compared Lego™ blocks for immutability, and illustrated that they to create a consensus for adding to the blockchain.
