

Why Should I live in Campus View?

What I like about living on campus is that it's only two hours from my house so I can be independent but I can also go home to see my family when I'd like to. Coming out here from being from Alaska, I didn't have any friends so I had to make friends and then those relations turned into something very special and so I know that I will always have those relationships with me for wherever I go next. Living on campus is very affordable compared to a lot of colleges. There are a lot of activities to get involved in and get to know people. You can make a lot of friends. I choose to live in Campus View to be part of an active student community and I like that I get a taste of life on my own but within the college community. I like it here because we have everything we need. I've met a lot of new friends and I love it here. It's really fun!
