

Vaccination Record Consent Form for On-Campus Living

In accordance with Jackson College's duty to provide and maintain a learning environment that is free of known hazards, the college adopted a policy to safeguard the health of our students from COVID-19. All students residing in college provided residence facilities are required to be fully vaccinated against COVID-19.

In general, people are considered fully vaccinated:

- 2 weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or
- 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine

As a resident requesting to live on campus the college will need to verify full vaccination against COVID-19 before a student is able to move onto campus. The Jackson College Health Clinic and the department of Residence Life will be working together to verify all students living on campus have been fully vaccinated.

As such, I give Jackson College Health Clinic consent to access my medical records for verification of immunization administration. If vaccination was received somewhere other than the state of Michigan, I would need to provide vaccination proof for verification by faxing the record to 517-205-8385.
