

Virtual Test Proctoring Options

Option 1

- Best option when using online platforms such as JetNet
- Students can easily share their screens so the proctor can monitor what is being used
- Proctor can input passwords on the student's shared screen to keep test integrity

Option 2

- Using Microsoft Word via Zoom, the proctor will monitor the student and environment while the exam is in progress
- Student never receives an electronic copy of the exam
- Student edits the document on the proctor's screen
- Student can use the drawing function which includes Ink to Math
